

SAN RAFAEL CITY SCHOOLS  
310 Nova Albion Way, San Rafael, CA 94903

ADDENDUM NO. 1  
TO  
RFQ/P No. #24-19

San Rafael High School LA & MU Reroof & HVAC Project  
Addendum Date: November 18th, 2024

THIS ADDENDUM PROVIDES FOR CLARIFICATIONS & ADDITIONAL  
INFORMATION:

**Questions/Answers:**

Question: I am unable to download the documents for this project via building connected.

Response: Per the RFQ/P, the documents for all the RFQ/P's are posted on the District's website. Here is the link: <https://www.srcsbondprogram.org/domain/16>

Question: I am reaching out to see if you have engineers estimates for the L/LB projects.

Response: Information is provided in the RFQP posted at the link in response to question 1.

Question: I was searching online for the project documents for the San Rafael High School LA and MU Building Roof Replacement and LA Building HVAC Upgrade Project and came across your email from a builder's exchange. Is there anyway you can send me the project docs as the School's website only has the RFQ document listed? Our company did go to the job walk yesterday and it seemed others had this information. Any help would be much appreciated.

Response: The district website has the 100% schematic design documents. Click on that purple wording and it will take you to the docs.

Question: RFQ/P # 24-19 provides guidance for contractor proposal preparation regarding pricing and contingency (Tab 8), but no specific form, format, or required breakout. Will there be a pricing form provided or is it up to the digression of the proposing contractors?

Response: No form will be provided; this information should be provided in a chart, with formatting at the discretion of the submitting firm.
