Re: San Rafael High School and Madrone High School Construction Update

Dear Neighbors,

On behalf of the San Rafael City Schools (SRCS) Board of Education, we are excited to share that progress is underway on school bond Measures B & C, generously approved by voters in 2022, to update our facilities across the District.

As part of the work, SRCS is renovating the San Rafael High School (SRHS) and Madrone High School campuses. To prepare the campus, designs for the projects have been completed and construction is planned to begin June 17, 2024 and continue through April 2026. Upgrades to the campuses will include modernization of the gymnasium complex, replacement of the aquatic center, a new fitness building, new fire alarm, temporary classrooms on the soccer field, new fences and security gates, photovoltaic installations, installation of a new AV display and speakers at the Commons, and replacing failed HVAC equipment at Madrone High School.

Unfortunately, we understand that construction of any nature can be disruptive, but we will make every effort to minimize the inconvenience to the surrounding community. In accordance with the City of San Rafael noise regulations, construction hours will be restricted to 7:00 am to 6:00 pm Monday through Friday and 9:00 am to 6:00 pm on Saturdays.

If you have any questions or concerns regarding the construction at SRHS and Madrone, please contact our construction manager, Greystone West, attention: Will McManus at (707) 933-0624 or will@greystonewest.com. Additional information and weekly updates will be posted on our website at www.srcsbondprogram.org.

We appreciate your patience through the duration of this multi-year-long project to help improve our campuses and our community.

Sincerely,
