## Terra Linda High School Gym + Frontage Update

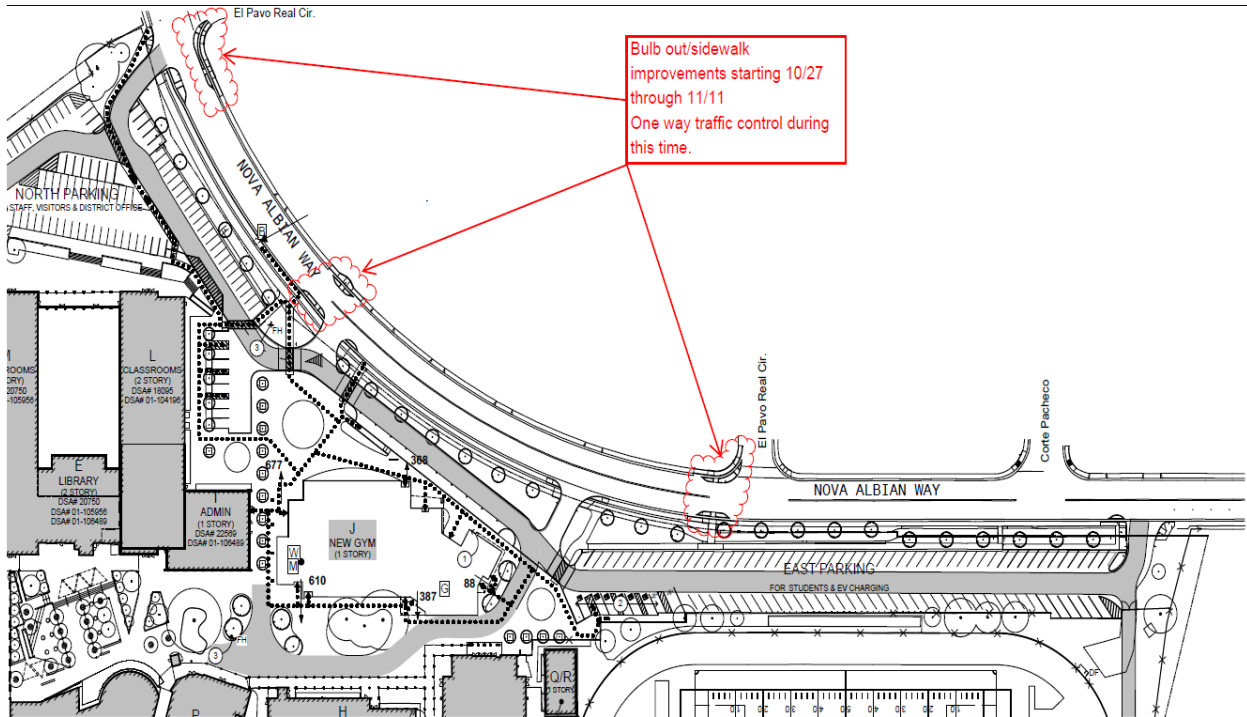

The TLHS Frontage Improvements are moving along right on schedule. The utility poles and lines have been removed, new street lighting is in place, the two-way bicycle pedestrian pathway is being installed, and new landscaping is being planted.

We wanted to let you know about a couple of construction frontage updates:

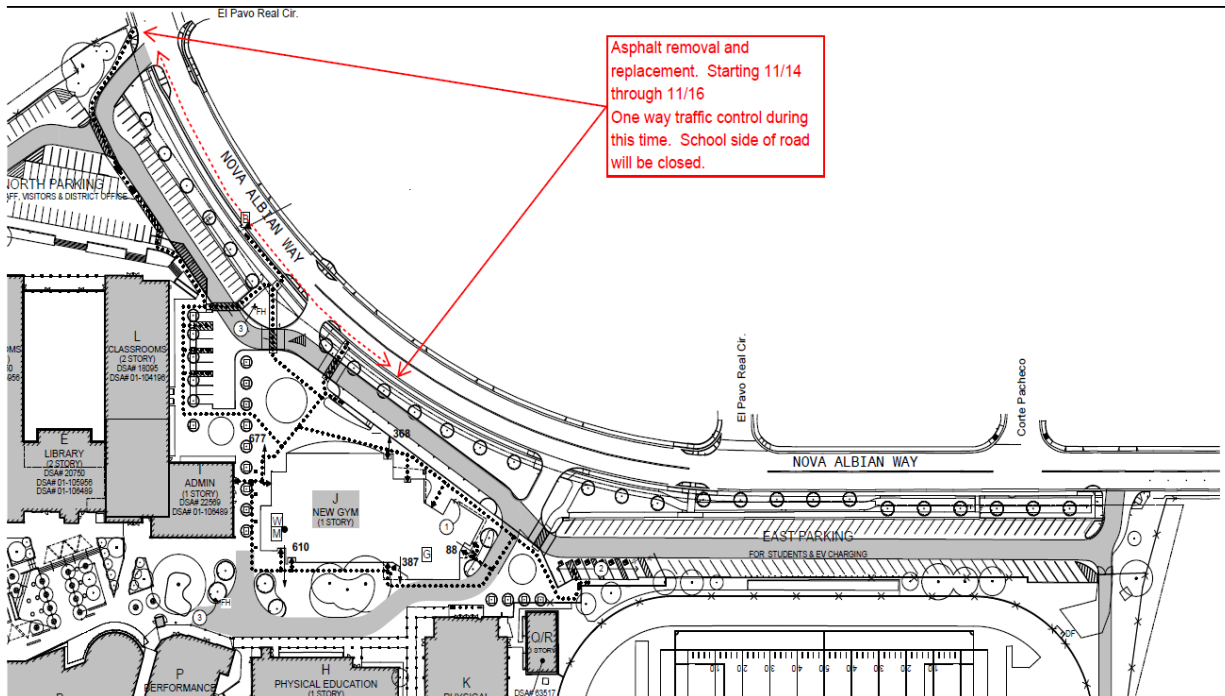

- Beginning Thursday, October 27<sup>th</sup>, the student crosswalk bulb outs, across the street from campus on Nova Albion, will be under construction. The lanes will be reduced from two lanes to one lane at times throughout the day, during which a construction flag person will be in place to help with traffic. This construction is scheduled to be completed by November 11<sup>th</sup>. See Bulb Out/Crosswalk Improvements diagram on the next page.
- Beginning Monday, November 14<sup>th</sup>, concrete asphalt work from the sidewalk into the street will occur on the campus side of Nova Albion. During the days this work occurs, the street will be closed on the school side and a construction flag person will be onsite to direct traffic. This construction is scheduled to be completed by Wednesday, November 16<sup>th</sup>. See Asphalt Improvements diagram on the next page.
