

## Davidson Middle School Community Notice

Construction at Davidson Middle School is underway! Starting this week, underground utilities will be removed as will a canopy and the sidewalk between the 40s Wing and the future new building. During October through November, please expect installation of new underground utilities across the entry drive, and grading and preparation of the site for the new building. Construction of the new building will begin later in the Winter and is scheduled to be completed in about a year.

With dramatic increases in cost escalation construction pricing, we are working with Davidson Middle School's Site Design Committee to prioritize projects and provide updates on the next phases of work. We hope you are excited to see us improving your San Rafael City Schools as we make progress as promised.

### Quick Look Schedule:

- Underground work and grading for the new buildings through November 2018
- Construction of new building commences early 2019

If you have any questions, please contact Dr. Dan Zaich, Senior Director, Capital Improvements
