

San Rafael High School Community Notice

Your Capital Facilities Team is excited to share that the San Rafael High School Madrone, New Administration, Central Kitchen, and Student Commons Building is on plan and scheduled for completion and move-in January 2021! The next three months will focus on completing the interiors, electrical/communication systems, plumbing fixtures, flooring, and ceilings. Exterior surrounding area work is now beginning on the seat walls, ramps, as well as at the new quad with student gathering areas, and landscaping.

Madrone, New Administration, Central Kitchen, and Student Commons Building Exterior

The Third Street parking lot is closed for paving preparation and will be available after Labor Day. Until then, staff and visitors will need to park and enter on the Mission Street side of the campus.

The summer Air Conditioning Project will be complete by September. The new roof-top mechanical units will be delivered to the site and lifted into place by helicopter. The air conditioning units will be installed and completed by late September.
